

Yassir Rzigui

AI Data Specialist | AI Safety, LLM Evaluation, and Full-Stack Engineer

rziguiyassir@gmail.com linkedin.com/in/yassir-rzigui github.com/yazzy01 portfolio-yassir-blond.vercel.app

PROFESSIONAL SUMMARY

AI Data Specialist and Full-Stack Engineer with 5+ years of experience in data annotation, data quality, data validation, multilingual data curation, LLM evaluation, RLHF, SFT, and AI safety. Proficient in Python, SQL, PostgreSQL, data analysis, automated QA workflows, benchmark development, and production data pipelines. Experienced in transforming complex guidelines into accurate, consistent datasets and evaluation signals across Arabic, French, and English.

CORE EXPERTISE

Data annotation, data quality, and data validation	Python, SQL, PostgreSQL, and data analysis
Multilingual data curation and linguistic QA	Data pipelines, automation, and quality workflows
RLHF, SFT, prompt writing, and LLM evaluation	Benchmark development and technical rubric design
AI red teaming, model safety, and trajectory evaluation	React, Next.js, TypeScript, Node.js, Docker, and CI/CD

EXPERIENCE

AI Safety, Data, and SWE Evaluation Specialist [Contract]

2025 - Present

Mercor | Remote

- Produced high-signal annotations, comparative judgments, and structured evaluation data for RLHF and SFT model-improvement workflows.
- Performed multilingual AI red teaming and prompt-based safety testing, evaluating robustness, policy compliance, factuality, and instruction following.
- Applied detailed rubrics to benchmark writing, CLI comparison, agentic trajectory review, and cybersecurity-focused SWE evaluation.
- Evaluated code, technical responses, and software-engineering outputs against detailed QA rubrics, providing ratings and structured feedback on correctness, quality, security, and instruction adherence.
- Maintained consistent data quality across complex AI safety, benchmarking, and model evaluation programs.

Full-Stack and AI Engineer

Dec 2023 - Present

Sigma AI | Remote

- Built AI-integrated dashboards, annotation monitoring tools, and data-quality workflows for distributed evaluation teams.
- Developed Python NLP and LangChain pipelines connected to React administration interfaces for structured data review.
- Automated validation and quality-control checks with Python, Docker, and GitHub Actions, reducing manual QA effort by 40%.

AI Workflow Engineer and Data Annotator

Feb 2024 - Jul 2025

Outlier | Remote

- Supported LLM improvement through RLHF-aligned annotation, multilingual prompt assessment, and structured output evaluation.
- Produced and reviewed 500+ prompts and data records daily across English, French, and Arabic while maintaining strong quality consistency.
- Automated data validation and quality checks with Python, saving 15+ hours of manual work per week.

Software Engineer, AI and Automation

2024 - 2025

Contract AI | Remote

- Built a legal document automation platform using Next.js, Node.js, PostgreSQL, and AI APIs.
- Implemented structured data extraction, summarization, and validation logic to detect inconsistencies and hallucinations, then deployed scalable cloud workflows with CI/CD.

Freelance Full-Stack Developer

Apr 2021 - Present

Independent | Remote

- Delivered 25+ web and SaaS applications for clients across health, legal tech, e-commerce, and education.
- Integrated data-driven features including semantic search, recommendation systems, analytics workflows, automation agents, and AI assistants using Python, SQL, PostgreSQL, MongoDB, React, Next.js, AWS, and Docker.

AI Data Quality Specialist and MT Evaluator

Nov 2023 - Jan 2025

RWS Group | Remote

- Evaluated multilingual datasets and machine translation output for Arabic, French, and English, performing linguistic QA, semantic validation, error analysis, and cultural review.

Remote AI Data Annotator

Jan 2019 - Mar 2025

TELUS, UHRS, Clickworker, Appen/CrowdGen | Remote

- Executed large-scale data annotation, labeling, relevance classification, speech evaluation, and content-quality review across Arabic, French, and English datasets.

SELECTED PROJECTS

TrendFlow SaaS

Micro-trend forecasting platform using embeddings, FastAPI, and real-time data pipelines.

Profile Builder

Automated portfolio generation with multi-step reasoning and structured profile extraction.

CineDiscover

AI movie recommendation system using OpenAI-powered reasoning and structured metadata.

EDUCATION

UM6P - University Mohammed VI Polytechnic

Ph.D., Computer Science - Machine Learning and Natural Language Processing | Sep 2019 - Jul 2022

UM6P - University Mohammed VI Polytechnic

M.S., Computer Science - Concentration in Artificial Intelligence (MIT) | Sep 2017 - Jul 2019

Universite Ibn Zohr

Bachelor's Degree, Mathematics and Computer Science | Sep 2014 - Jul 2017

PROFESSIONAL TRAINING

Digital France School

Digital AI Architect - Full-Stack and Intelligent Systems | Jan 2025 - Sep 2025

ALX Africa

Backend Software Engineering and AI Foundations | 2024 - 2025

LANGUAGES

Arabic Native **French** Native **English** Professional

CERTIFICATIONS

Full-Stack Developer and AI Data Specialist (micro1, 2025) | **ProDev Backend Developer** (ALX, 2025) | **Backend Development Certification** (ALX, 2025)
